SCHOOL SYSTEM DOCUMENTATION

Prepared for
NURSERIES AND SCHOOLS

Prepared by
Ufanisi Africa

Executive Summary

This document serves as the official document from **Ufanisi Africa** for developing and deploying a **School Web Info Management System** to your business or organization.

Who is Ufanisi Africa?

It is a technology-oriented business support services firm that offers services within the scope of ICT, Social, Business Development and Media Solutions thereby helping organizations identify and define the strategies, processes, capabilities and metrics required to execute objectives. We apply our insight and expertise to help an organization achieve its goals.

Manual System's problem Statement

School records are expensive to maintain in terms of amount of physical space and accessibility. The manual records associated with loss of production and fragmentation. It is easy to be manipulated and pave way for thefts.

The system proposed will address the entire problem after conducted intensive research, reports analysis and needs. All these factors have been put in consideration to come up with stable multidimensional solution.

Features

The proposed system has the followings features;

- ❖ **Staff Registration:** It registers information of all employees. The system manages information of both full employed and casual employees.

- ❖ Student Registration: It registers information of all students. The student can handle all levels i.e., primary, secondary, advance etc.
- ❖ Parent Registration: It registers information of all parents/guardians. The system automatically assigns them to their respective students.
- ❖ Academic Management: The system manages all academic functions ie curriculum, classes, exams, reports, attendances, leaves permits etc.
- ❖ Accounting Management: The system manages payroll, expenses, and incomes. Student fees groups are created recorded and sorted.
- ❖ Report Management: It provides both academic related and financial reports. Reports generated are in standard format.
- ❖ Library Management: It manages all library functions by facilitating books registration and indexing, borrowing and returns procedures, status etc.
- ❖ Inventory Management: It records and tracks all items i.e. medicine inside nurse room, beds inside dormitory etc.
- ❖ The system can be customized to meet your additional needs.

Benefits

Our company has developed over **30** systems within the last **five** years. We make sure that each system we develop is equipped with the latest trends, tools, and technologies, of which our employees have trained and have sufficient knowledge thereof.
